Letter to the Citizens of Anaconda-Deer Lodge County

To the Citizens of Anaconda-Deer Lodge County:

The Anaconda-Deer Lodge County Study Commission elected by the voters on November 4, 2014, or thereafter appointed, present this final report to the citizens of this county.

We, the Study Commission, provide this information to the voters for their decision during the voting process. The Study Commission does not make these decisions; final determination of changes will be decided by the voters at the polls.

The Study Commission interviewed the current Chief of Law Enforcement, the current Chief Executive Officer, County Attorney, the Board of County Commission, one (1) former city-county manager and three (3) previous Study Commissioners. We also met with the following local civic groups: American Legion, Retired Men's Breakfast Club, Literature Class, Senior Citizens, Board of Directors for the Chamber of Commerce, Kiwanis, Ancient Order of Hibernians, the Annual Kid's Fair, and the Anaconda High School Government Class. The commission also held many public meetings and multiple public hearings as well as a public survey.

Our primary goal was to assess our strengths and weaknesses with the Charter form of city-county government. After an intensive study of twelve (12) months, it is the decision of the Study Commission to recommend Anaconda-Deer Lodge County maintain its existing governmental framework. However, the Study Commission is proposing ballot initiatives to meet the changing needs of this county and its charter based on suggestions and recommendations of the public.

These recommendations of ballot language reflect the thoughts and opinions of all the people who participated in public hearings, regular meetings and those who responded to the survey. In this report, we present our recommendations of ballot language for an amended form of government. Our goal is to provide changes to our form of government that will be responsive to local citizens.

The responsibility is now for citizens to examine the advantages and disadvantages of the proposed ballot initiatives to amend the current Charter. This is a unique opportunity for Anaconda-Deer Lodge County citizens to shape their local government. As a result of citizen involvement, the Anaconda-Deer Lodge County Study Commission recommends three (3) proposed ballot language options, each covering areas where concerns were identified.

We, therefore, propose the following changes:

FINDINGS OF THE STUDY COMMISSION

197248

We find the city county consolidated charter form of government has been effective in serving the county and meeting the needs of its citizens. However, citizens have voiced concern over certain inefficiencies within the charter form of government. The Study Commission has found that certain initiatives should be sent to voters in order to give the opportunity to change those portions of the charter.

Finding I.

During our process of gathering citizen input, it was determined that many electors want to vote for members of the Commission in its entirety and not just for the candidates within their district. The process most advocated allows nominees for Commission seats continue to be elected during the primary election by district. Post primary it has been recommended that ballot language offer that the two candidates from each district receiving the highest number of votes be placed on the general election ballot and voted by the electorate “at-large”, giving all electors the ability to vote on each Commission seat in the general election.

Finding II.

During our process of gathering citizen input, it was determined that many electors feel that the county CEO must have a skill set that meets the needs of running a complex organization. Growth and increasing complexities of government should require administrators to be trained in budgeting, personnel management and service delivery. Establishing the position of “Manager” would allow the Commission the opportunity to hire a Manager based on qualifications and experience and still allow the citizens the opportunity to partake in the hiring process.

Finding III.

During our process of gathering citizen input, it was determined that many electors feel that Finding II applies to the elected Chief of Law Enforcement position as well. Establishing an “appointed” or “hired” Chief of Law Enforcement position will allow the Commission or Chief Executive (or Manager if applicable) to hire based on qualifications and experience.

RECOMMENDATIONS

The Study Commission proposes the following.

I.

Nominees for Commission seats would continue to be elected during the primary election by district. The two candidates from each district receiving the highest votes would be placed on the general election ballot and voted by the electors "at-large", giving all electors the ability to vote on any candidate running for a Commission seat.

II.

The Study Commission proposes placing on the ballot, language replacing the "elected" Chief Executive with an "appointed" Manager who would be chosen by the Board of County Commission using qualifications approved by the Board of County Commission with maximum public input during the hiring process.

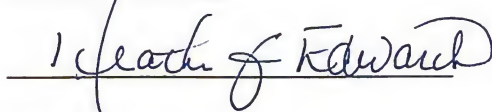

III.

The Study Commission proposes placing on the ballot, language replacing the "elected" Chief of Law Enforcement position with an "appointed" or "hired" Chief of Law Enforcement position to be selected by the Board of County Commission/Chief Executive or Manager (if applicable) using qualifications approved by the Board of County Commission with maximum public input during the hiring process.

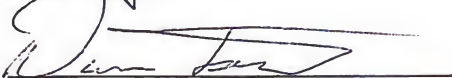

If the position is to be appointed by the Board of County Commission, the process would be similar to the Manager position in that there would be maximum public input allowed during the hiring process. If the position is to be appointed by the Chief Executive/Manager (if applicable), a successful applicant would be hired with concurrence of the Board of County Commission.

Respectfully submitted,
